Letter no. 521 dated 26th September 1925 from the Executive Engineer, Special Water Supply Construction Division, Bangalore to the Chief Engineer for Irrigation, Bangalore

---

I have the honour to submit herewith the statements showing the amounts that may be granted to the Special Water supply Works out of the provision of Rs 6,000 made in the current year's budget under the head 50 grants for Public Health & Water supply in Towns."

Although large amounts are required for some works, the amounts noted in the statement are proposed with a view to restrict the total amount to the budget grant for the current year.

The grants noted against the year 1925-26 for Chikmagalur & Chitaldrug works were transferred to P.W. deposits & the unspent balance including municipal contribution

amounting

amounting to Rs 33,393 & £2,684 respectively are available for these works. This accounts for the small grants asked for these works

The Estimates for Kota & Sunka Water Supply have to be sanctioned early during the year as otherwise it may not be possible to work out the grants

I request the favour of early advice in the matter

Yours etc

Dear Mr. Matthan,

A new extension called Narasimharaja Mohalla has been formed in Mysore on the Seringapatam Road, and the present E.D. Hospital is so closely situated to this extension that the inhabitents there are put to much inconvenience and difficulties.

I addressed the Senior Surgeon in the matter, and asked him whether he could provide Rs. 5000/- this year for removing and putting up the sheds on the new site. He has replied that as he had to meet certain unexpected expenditure it is hardly possible for him to spare this amount, and has suggested that there is a provision of Rs. 60,000 for "Improvement of Water Supply in Towns", and he could spare Rs. 5000/- out of this amount if the Government decide to appoint either the Sanitary Commissioner or the Central Sanitary Board as operating agency over this sum.

Is it not possible to give this sum as an advance at least, recoverable, if necessary, from the

amount realised by the sale of the present site, which should fetch Rs. 15 to 20,000.

Yours sincerely,

Mirza M. Ismail
